**RE: Final Interim Measure/Interim Remedial Action for the Original Landfill (March 10, 2005)**

Dear Mr. Legare:

The Colorado Department of Public Health and Environment and Region 8 of the Environmental Protection Agency have reviewed the final IM/IRA for the Original Landfill and the responses to our comments. Modifications made to the document satisfy our remaining comments and the document is approved. Replacement pages reflecting these last modifications should be sent to both agencies.

The agencies have received and are currently reviewing design documents for the approved cover. Once comments on those documents have been satisfactorily addressed, work can proceed beyond the initial clearing and grubbing step already approved.
